VOLUME CVI.---NO 182. ALEXANDRIA, VA., THURSDAY EVENING, AUGUST 3, 1905. PRICE 2 CENTS.

"Shut your eyes, open your mouth and see what luck will bring you."

Many a woman is weak and sick, nervous and discouraged. She suffers from headache, backache and other ills. She wants to be well, but all she does is to shut her eyes and open her mouth for medicine and trust to luck for results. She "doctors" month after month, often year after year, in this same blind, hap-hazard fashion, and receives no permanent benefit.

Women take Dr. Pierce's Favorite Prescription with their eyes open to the fact that it cures womanly ills. It cures irregularity. It dries debilitating drains. It heals inflammation and ulceration and cures female weakness. There is no trusting to luck by those who use "Favorite Prescription."

"In the year 1903 my health was poor," writes Mrs. J. Hack, of 262 Broadway, Buffalo, N. Y. "I suffered from falling of womb, a disagreeable discharge, painful monthly periods, headache, backache and pains in the limbs. Every month was confined to bed for two or three days. Was weak, nervous and hysterical; life was a burden to myself and I made every one in the family unhappy because I was so irritable. My husband got me four bottles of Dr. Pierce's Favorite Prescription, and before I had taken the first bottle I was feeling some relief. The medicine made me well and strong, free from nervousness, aches and pain, and I felt like a new woman. Before I used the 'Favorite Prescription' I had been taking another physician's medicine for nearly three months, but had received no benefit. Your medicine is certainly the best in the world."

A man or woman who neglects constipation suffers from slow poisoning. Dr. Pierce's Pleasant Pellets cure constipation. One little "Pellet" is a gentle laxative, and two a mild cathartic. Don't let a selfish seller over-persuade you to accept a substitute for these Original Little Liver Pills, first put up by old Dr. R. V. Pierce over 40 years ago. Much imitated but never equaled.

HAIR TELLS CHARACTER.

Color of Hair Said to Indicate a Person's Temperament.

Many people believe that blonde, or light hair denotes affection and dark hair constancy. A person without hair is not devoid of character; far from it. The disposition of the average bald-headed man is to show such solicitude for the welfare of others, that he neglects himself. A germ causes baldness. Prof. Sabouraud, of Paris, France, inoculated a rabbit with Dandruff germs, causing it to become totally bald in five weeks' time. To rid the scalp of these dangerous germs it is necessary to apply Newbro's Herpicide.

"Destroy the cause—you remove the effect."

Sold by leading druggists. Send 10c in stamps for sample to The Herpicide Co., Detroit, Mich.

WEAK HEARTS

are caused by Indigestion. If you eat a little too much, or if you are subject to attacks of Indigestion, you have no doubt had shortness of breath, rapid heart beats, heartburn or palpitation of the heart.

Indigestion causes the stomach to expand—swell, and puff up against the heart. This crowds the heart and interferes with its action, and in the course of time the heart becomes diseased.

Kodol

Dyspepsia Cure

digests what you eat, takes the strain off of the heart, and contributes nourishment, strength and health to every organ of the body. Cures Indigestion, Dyspepsia, Sour Stomach, Inflammation of the mucous membranes lining the Stomach and Digestive Tract, Nervous Dyspepsia and Catarrh of the Stomach.

After eating, my food would distress me by making my heart palpitate and I would become very weak. Finally I get a bottle of Kodol and it gave me immediate relief. After using a few bottles I am cured.
MRS. LORING NICHOLS, Penn Yan, N. Y.

I had stomach trouble and was in a bad state as I had heart trouble with it. I took Kodol Dyspepsia Cure for about four months and it cured me.

Suggests the South for Jews.

Dr. Adolphe Danziger, formerly United States Consul at Madrid, arrived in Washington yesterday, to lay before the Department of Commerce and Labor memoranda concerning the condition of the Jews abroad, the information being gathered at the request of the department for the use of the Bureau of Immigration in dealing with the case of immigrants.

"In England, Germany and Russia," said Dr. Danziger, in reviewing his observations, "what struck me most notably was the hopeful view the Jews take of America.

"The people I met were hoping that the President would take the opportunity that presented itself to induce the Russian government to grant them freedom, or at least to give them equal rights in Russia. Many of the Russian Jews do not want to leave that country. They are farmers, and are hardy and brave people. They love their country in spite of the terrible oppression that has been brought upon them by the Russian government.

"I found a terrible condition among the Russian Jews who have gone to England to come to this country. The steamship companies are afraid to bring them to America, for fear they will be declared paupers, with the result that the steamship companies would have to take them back to England. In order to refuse them passage when they have the money to pay their way the doctors of the companies invent excuses. They declare that they are suffering from some kind of eye disease or some other imaginary ill. The fact is, the Jews there are powerful fellows, who have their muscles trained on farms in Russia. They are not only farmers, but mechanics of all kinds."

Dr. Danziger expressed the opinion that the South offered an opening for the Jews if the interests there were anxious to obtain white labor for farm work.

The War Situation.

Japan, it is reported, has now an open way to Vladivostok through the Ussuri territory in Siberia. This territory, which borders on the Pacific Ocean, has been abandoned by the Russians. The territory was abandoned some time ago.

The entire Russian force in the Ussuri territory consists of nine battalions of infantry, with a reserve regiment formed at Blagovestchensk. They have no artillery. It is impossible to send reinforcements from Vladivostok, which is daily threatened with siege by General Hasewaga's army.

This leaves open to the Japanese the shore of the Ussuri territory south of Port Castries to the Gulf of Peter the Great, on which Vladivostok, is situated.

With M. Witte in the United States and the disclosure of the Japanese terms only a few days away, the St. Petersburg papers generally refrain from conjecture as to the outcome of the negotiations.

A dispatch to the London Times from St. Petersburg says that another imperial telegram, even more warlike than the Emperor's reply to the Orenburg clergy, appeared in yesterday's Official Messenger. The Emperor, replying to an address from Khabarovsk, heartily approves the recommendation to continue the war until the enemy is crushed, and, above all, not to think of the cession of territory or the payment of an idemnity.

Electrical Storm at Sea.

Capt. Warr, of steamship Caronia, which reached New York yesterday from Liverpool, reports on Sunday last the Caronia passed through the most violent electrical storm he has ever witnessed. An iceberg had just passed as the ship headed into the storm. So close was the berg that a polar bear was plainly seen on its edge, and the passengers made snapshots of him with cameras. Then the light died out, clouds of inky blackness rose, and the temperature, already cold from the presence of the berg, fell to 53 degrees, while the wind increased from twenty miles to fifty miles an hour. Many passengers remained where they could witness the electrical storm, whose lightning flashes made almost continuous light, and temporarily blinded the onlookers. The storm broke apparently directly above the Caronia.

A Warning to Mothers.

Too much care cannot be used with small children during the hot weather of the summer months to guard against bowel troubles. As a rule it is only necessary to give the child a dose of castor oil to correct any disorder of the bowels. Do not use any substitute, but give the oldfashioned castor oil, and see that it is fresh, as rancid oil nauseates and has a tendency to gripe. If this does not check the bowels give Chamberlain's Colic, Cholera and Diarrhoea Remedy and then a dose of castor oil, and the disease may be checked in its incipiency and all danger avoided. The castor oil and this remedy should be procured at once and kept ready for instant use as soon as the first indication of any bowel trouble appears. This is the most successful treatment known and may be relied upon with implicit confidence even in in case of cholera infantum. For sale by Gibson & Timberman and W. F. Creighton & Co.

Perfection Mosquito and Fly Canopies.

Why be annoyed by mosquitos and flies when it can be prevented by a very small expense and no trouble?

We call special attention to the fact that the "Perfection" 5-coil canopy springs have been THOROUGHLY TESTED in tension, action, power and endurance, and found that they will lift any grade new net to a perpendicular position against the head board, and will also undergo the strain of being fastened down, day and night, continuously for many months without showing signs of weakness, when properly adjusted. They are small in diameter; noiseless in operation; look neat and pretty; are not clumsy nor in the way; are strong and durable, and the most perfect canopy springs ever put on the American market.

Made in all sizes and can be adjusted to either metal or wood beds.

Have us put one up for you, and after one week's trial if not entirely satisfactory we will take it down and refund your money.

GRAFT in the Marine Hospital Service is the latest allegation and if the reports concerning it are true, it is of a specially obnoxious sort. The parts of the service infected are in China and Japan. There it is said the agents of the service, stationed a at the various treaty ports to examine intending immigrants to the United States, have fallen into the habit of exacting fees of $50 per head from the Chinese and Japanese who come to them for clean bills of health which will permit them to land in this country, provided they have in addition the necessary certificates from United States Consuls showing they do not belong to the excluded classes. Rumors that the surgeons of the Marine Hospital Service at Chinese and Japanese ports had acquired the graft habit, which is said to be endemic in the Orient, reached Washington several months ago. Chief Wilkie, of the secret service, was himself detailed to investigate. This is the secret of his mysterious trip to the Orient, from which he returned to Washington only a few days ago. To avoid suspicion, it was given out that Chief Wilkie was going to the Philippines to investigate counterfeiting. The chief did not go to the Philippines, however, but spent his time in Japan and China, looking into the allegations that surgeons of the Marine Hospital Service were charging intending immigrants to the United States $50 per head for clean bills of health. Whether Wilkie confirmed the report of the graft by the surgeons is not known, as he has refused to say anything about his trip. It is said the alleged misconduct of the Marine Hospital surgeons in the East is in part responsible for the bitter feeling which has of late arisen in China against the United States and has led to the widespread boycott movement against American goods by the Chinese merchant guilds. It is reported that after paying their fee of $50 for clean bills of health many Chinamen have come to the United States only to be refused admittance at the ports of landing on the ground that they were infected with contagious, dangerous or loathsome diseases. Is there any wonder that China resents the treatment her subjects receive in this country and is resorting to retaliatory measures?

AMERICAN FLOUR and glass will be driven from Venezuela by the action of President Castro in granting a monopoly to two persons engaged in the manufacture of those products. One contract gives to Jose Hilario Mora the exclusive right to establish flour mills in Venezuela for 20 years and the contract cannot be transferred to a foreigner. All necessary machinery may be imported free of duty and the business will not be taxed in any manner. The other concession gives to Senor Carlos Zuloaga the exclusive right to manufacture glass and crystal articles for 15 years. He is given the privilege of importing free of duty everything necessary for the establishment of glass works and may obtain from the government free of tax any materials it owns. This government has been so overbearing toward Venezuela that the latter country, like China, will endeavor to do without goods made in the United States.

NEW AND MORE stringent laws to punish grafters in the public service will, it is said, be urged upon Congress by President Roosevelt. This is indicated by the statement of Attorney General Moody after his talk with the President at Oyster Bay Tuesday. The fear that Holmes, who sold government crop statistics to New York cotton speculators, and Dr. Moore, who was interested in the manufacture of soil cultures indorsed by the government bureau of which he was the head, cannot be reached by existing law indicates clearly the need for such legislative action as the President may recommend. But, unfortunately, there will be found too many members in both houses of Congress who have more interest in maintaining the abuses of the department than in removing them.

DISPATCHES from New Orleans show no diminution in the ravages of yellow fever. The spread of this malady is naturally causing great apprehension in the entire southern country. Many persons are refugeeing from infected places and business is suffering seriously. The State troops have been ordered out to enforce quarantine and sanitary laws.

SCENES IN San Juan Tuesday show that the Porto Ricans are not of the docile temperament many supposed them to be when the United States wrested the island from Spain. The natives may be slow in assimilating with Americans, but they seem to have contracted the strike fever which rages continually in this country.

The American Tissue Paper Company plant at Shiersville, Pa., was partly destroyed by fire this morning. Loss $5,000. There was practically no insurance.

From Washington.

[Correspondence of the Alexandria Gazette.]

Washington, D. C., August 3.

U. S. Minister Leishmen, at Constantinople, has sent to the State Department a mail report on the recent arrest of Mr. Gargiulo, the dragoman of the American Legation there, which was briefly reported in the press dispatches early in July. Ample apologies were given by the Turkish authorities; the dragoman was under arrest only an hour, and the man who made the arrest was promply dismissed in disgrace from the service. The State Department has acknowledged the report with an expression of gratification at the prompt closing of the incident. It seems that the trouble arose through the issuance of a general order to arrest persons found purchasing arms and ammunition, the importation of these articles into Turkey being forbidden. Foreign subjects have however been smuggling arms into the country and the local authorities in preventing the sale of the forbidden articles attempted to stop the practice by arresting the customers when issuing from the stores with their purchases. Mr. Gargiulo found it necessary to purchase a small box of cartridges and on coming out was placed under arrest, the police not having been sufficiently cautioned against arresting foreign subjects and especially any one connected with the diplomatic corps.

The report of the Agriculture Department today on the condition of the cotton crop was the first gotten out under the new method devised by Secretary Wilson. A temporary board of statisticians, consisting of Victor Olmstead, Stephen D Fessenden, George K. Holmes (no relation to E. S. Holmes, jr.,) and John J. Darg, did the business. Assistant Secretary Willet M. Hays, in charge of the bureau, received the work of the board. The board and Professor Hays were locked in the main office of the bureau of statistics at 8 o'clock this morning. Secretary Wilson was up early to see that the job was done properly. Prof. Hays carried into the room with him a bundle of reports. They were for the correspondents in the south, and were brought over to Secretary Wilson in a special mail bag from the postoffice. Each envelope was peculiarly marked and orders had been issued that no person in the department accept Secretary Wilson or Prof. Hays should touch these before they were taken to the barricaded room of the statisticians. Police were stationed at the entrances to the bureau with positive orders to allow no one except Secretary Wilson to pass after the board entered. Clerks who happened to come late had to wait until after 12 o'clock to get into the bureau to go to work. Telephones in the department were disconnected during the forenoon. Drawn shades prevented any possible wig-wagging of news to the outside. The police had orders to keep the members of the board in the room until noon, even though they finish their computation before that hour. Just before noon Secretary Wilson entered the bureau, and promptly on the stroke of twelve Prof. Hays emerged with the report in his hands. Each member had gone over the reports separately. Slight differences in estimates were adjusted by averaging. Finally all expressed their approval of the figures before they were formally given out.

The report of the Bureau of Statistics of the Agriculture Department on the cotton crop was given out today at noon as follows: Average condition on July 25 74.9 as compared with 77.0 on June 25 1905, 91.6 on July 25, 1904, as with 79.67 on July 25, 1903, and a ten year average of 82.6.

The local grand jury which is considering the "cotton leak" scandal of the Agriculture Department with a view of returning an indictment against E. S. Holmes, jr., former associate statistician, for bribery and conspiracy, and which adjourned last Tuesday, met today for the consideration of local cases. After today's session the grand jury will adjourn to the 15th. The District Attorney will endeavor to bring John Hyde, late statistician of the Bureau of Statistics of the Department of Agriculture, before the body as a witness. Mr. Hyde, who is in England, wired Secretary Wilson that he would return. The exact date, however, was not stated. Attorney General Moody had a conference with District Attorney Beach today regarding the case, his desire being to keep in personal touch with developments.

Russell, the new United States Minister to Venezuela, who has been in this country on his honeymoon and also as a witness in the Bowen-Loomis case, will sail for Caracas from New York on Saturday. The same ship will carry W. J. Calhoun, the special commissioner appointed by the President to go to Caracas to make a thorough investigation of the precise standing of all the American claims against Venezuela, including that of the New York and Bermudez Asphalt Company, and how they will be affected by the arrangement recently entered into by the Venezuelan government with the foreign bondholders. Mr. Calhoun will be accompanied by his wife and by Mr. Frank L. Joannini, who has been detailed from the Bureau of Insular Affairs, War Department, as his secretary and disbursing officer. Mr. Joannini is an accomplished Spanish scholar. Mr. Calhoun goes as a direct representative of the President and expects to be absent about two months.

Secretary of the Treasury Shaw refuses to discuss the charge that surgeons of the United States Marine Hospital Service in China have been illegally exacting fees of $50 from Chinese and Japanese, who are desirous of coming to this country, for clean bills of health which will enable them to land after they arrive here. Chief Wilkie of the Secret Service denies that he was dispatched to China to investigate charges of that character. Surgeon General Wyman of the Marine Hospital Service says charges of that character were never brought to his attention. It is known however that the charges in question were submitted to the immigration bureau several months ago and referred, by that bureau, to the Treasury Department.

The following telegrams have passed between Governor Blanchard of Louisiana and Secretary Shaw of the Treasury Department respecting the alleged interference with the rights of the State of Louisiana by the revenue cutter Winona:

Baton Rouge, La., Aug. 2, 1005.

The Secretary of the Treasury, Washington, D. C.

Revenue cutter Winona guilty of interference with rights of Louisiana boats in navigable waters of the United States apparently assisting] Mississippi quarantine patrol boats in unwarranted invasion of Louisiana waters and interference with rights of Louisiana citizens. I protest and ask prompt action at your hands to stop Winona's practice and for release of boats taken in charge by her.

N. C. BLANCHARD.

Secretary Shaw's answer is as follows:

"Hon. N. C. Blanchard, Baton Rouge, La.

"As authorized by law, revenue cutter Winona has been detailed to assist Public Health and Marine Hospital Service in maintenance of quarantine established by State of Mississippi. The State of Mississippi having established quarantine, please advise if in your opinion the act of Congress approved February fifteen, eighteen ninety-three, has been violated, and if so, wherein.

"L. M. SHAW."

State Department officials declare that there is absolutely no thought on the part of the United States government to agree to a Chinese exclusion treaty of the character telegraphed yesterday morning from the Pacific coast and which purported to be the text of a treaty now being considered by this government. This document was a copy of a treaty proposed some eight months ago by China, but rejected at the time by the State Department on the ground that it contained many provisions diametrically opposed to existing Chinese laws in force. Since the time this treaty was proposed by China several other propositions have been made by the Peking government, none of which, however, have been accepted by the State Department. In speaking today of the prospects for a Chinese exclusion treaty a high official of the State Department expressed most pessimistic views. He said that while the administration was anxious and willing to make a treaty with China which would more clearly interpret the present exclusion laws and would particularly set forth what classes of Chinamen were entitled to admission into the United States there seemed to be no prospect that the Senate would ratify such a treaty, no matter how broad its terms. According to this official the trouble with the existing exclusion law is that it is not sufficiently clear as to what Chinamen should be admitted while it set forth explicitly the classes that were not entitled to admission. The State Department would like to see this matter cleared up, but in view of the known antagonistic attitude of the Senate in regard to any exclusion treaty whatsoever, it is not anticipated that any effort will be made in the near future to make such a treaty with the Chinese Government.

The Postoffice Department had decided to co-operate with the Marine Hospital Service in the effort to prevent the spread of yellow fever in the South. A circular has been printed by order of Surgeon General Wyman setting forth the best methods of screening against and destroying mosquitoes.

The State Department today received a letter from the charge d'affaires at Vienna giving particulars of the arrest in that city of Paul Kekic, a wealthy Croatian, from Cleveland, Ohio, who is charged with counterfeiting. The letter conveys the information that the prosecuting attorney holds Kekic to be the leader of a gang of international counterfeiters, who made their headquarters in Kekic's Cleveland restaurant. Four of the gang were convicted in Cleveland and three in Croatia. Two of the latter are said to have turned State's evidence, implicating Kekic.

Sergius Witte, the Russian peace plenipotentiary, on his arrival in New York emphatically denied having said that Japan's peace terms were intolerable. He also denied positively that he had predicted that the conference would break up in a week. Dispatches from Russia, which are always unreliable, say that in military circles in St. Petersburg the betting is five to one against peace.

The Anti-Saloon League.

President James Cannon, jr., of the Virginia Anti-saloon League, has sent out a circular from Richmond embodying the result of letters sent to various candidates for office regarding their position on liquor legislation.

Senator Martin declared himself in favor of the Hepburn bill, voted for abolishing the liquor feature of the army canteen, and heartily indorsed legislation to protect the Indians from the sale of liquor. Gov. Montague took the same stand, or indicated that his position would be such if elected, except as to the Hepburn-Dolliver bill, which he had not studied at the time. Letters were sent to Messrs. Mann, Swanson and Willard, gubernatorial candidates, asking if they favor the following legislation:

First—To amend the existing laws so as to bring distilleries under the operation of the Mann law.

Second—To amend the law relating to social clubs so as to prevent the infringement of dry territory and to prevent the abuse of the privileges they now enjoy and the use of said privileges for saloon privileges.

Third—That all beverages producing intoxication shall be declared to be ardent spirits within the meaning of the laws regulating the sale of such spirits.

Fourth—That present laws regulating the sale of ardent spirits be so amended as to provide such penalties by confinement in jail and bonds as will secure obedience to the laws.

Fifth—That a law be enacted making the possession of a United States tax receipt for the sale of ardent spirits by any person prima facie evidence of the sale of said spirits by such person.

Judge Mann replied promptly, favoring all five propositions. Col. Willard replied, declining to state his position, and Congressman Swanson took no notice of the queries.

In connection with Col. Willard, Mr. Cannon states that the latter indorsed the application of a man in Washington to conduct a saloon at the corner of Second and G streets southwest, known as Sawdust Hall. Col. Willard later explained that this indorsement was sent by his secretary, and he knew nothing of it, but that as his secretary is an honorable man, he (Col. W.) assumes the responsibility for his action.

A complimentary concert was tendered Leo Wheat, the pianist, by his friends, at the Jessup Country Club, in Maryland, last night. He was assisted by Messrs. Levy and George McD. Mount, of Jessup, upon the violin, and Robt. M. Hook, of Baltimore gave some vocal selections. Mr. Wheat has made many friends doth in and out of the institution since his stay in Jessup and is now being entertained by George McD. Mount, and will afterwards visit Mr. and Mrs. Alfred Thompson. He says he feels stronger in every way since his incarceration, and as soon as he is fully himself he will make a concert tour through Texas.

Murderer Struck Dead.

A strange coincidence is recorded in the tragic death of Sol Netherland, a negro, at Big Stone Gap, Va., this week. Netherland had his arm torn partially off and a hole torn in his head by flying stone as the result of having remained too near a blast. His companions state that he had just been telling how some years ago he killed a woman. She held up her arm to shield herself from the bullet. The ball, he said, passed through her arm, and, entering her forehead, brought almost instant death. Netherland occupied the same position with reference to the fatal blast. He stood near, holding his arm before his face as if to shield himself from harm, when a portion of the flying stone tore his arm away and cut the gash in his forehead that ended his life.

The Coming Conference.

Oyster Bay, N. Y., Aug. 3.—President Roosevelt must be holding conferences all over his big house at Sagamore Hill if he is able to get a private talk with the individuals who are visiting him this afternon. Among those at luncheon are Sir Henry Mortimer Durand, the British ambassador; Lieut. Commander W. S. Sims, of the navy; Hon. W. J. Calhoun, special envoy to Venezuela; Hon. W. W. Russell, United States minister to Venezuela, and W. M. Seymour Edwards, a distant family connection. After the luncheon the President will receive Alvin H. Sanders, of Chicago, chairman of the reciprocity committee which is to meet in the city by the lake. It is supposed that the personal representative of King Edward is here for the purpose of ascertaining, if possible, whether there is any truth in the persistent rumor that the coming peace conference at Portsmouth is likely to end in a deadlock. The British administration is naturally very anxious to know just what is to be expected from the Portsmouth meeting. Although nothing official has been given out it may be said that the President looks upon the situation as decidedly optimistic and is confident, unless the unforeseen occurs, that the plenipotentiaries will be able to reach an agreement that will put an end to hostilities.

Portsmouth, N. H., Aug. 3.—The committee appointed by Gov. John McLane to make arrangements for the reception of the Japanese and Russian peace envoys by the State of New Hampshire, states this morning that they had arranged for a dinner in the colonial dining room at the Rockingham at 12 on Monday, which Governor McLane will give to the receiving party attended by his military staff, the council, which represents the executive branch of the government and the congressional delegation. St. Petersburg, Aug. 3.—The Moscow Gazette says the only acceptable condition of peace is the evacuation of Manchuria and Corea by the Japanese. Russia will considerately forego demanding the payment of an indemnity.

Birmingham, England, Aug. 3.—The Post says that private advices from Berlin declare that a great sensation has been occasioned there by the receipt of a communication from the Russian war ministry asking it if it will be possible to cancel contracts given German firms for 40,000,000 rounds of ammunition and a large quantity of shells. No reason is given for the desire to cancel these contracts. An agent representing the German syndicate has gone to St. Petersburg to discuss the matter with the Russian military authorities.

Mourning for a Dog.

Cincinnati, Aug. 3.—Crape hung from the front door of the store conducted by Carl Schwartz, in the West End, yesterday afternoon and evening, and business was suspended so that the proprietor and his family could pay fitting tribute to the memory of their pet poodle, whose body lay in state in a tiny casket within the house.

Two days ago the dog disappeared. Searchers were sent out, and a liberal reward was offered. Yesterday morning the poodle came back badly injured by a wagon, and it soon died. Schwartz ordered all customers from the store, pulled down the shades and tacked up the crape. Last night the bereaved members of the household accompanied the body to a secluded spot in the country, and there buried it. A slab affectionately inscribed marks the grave.

The Taggart Divorce Trial.

Wooster, Ohio, Aug. 3.—"What I most regret," said Captain Taggart at the opening of the second day of the Taggart divorce trial, in this city "is that the names of several officers for whom I have the greatest respect must be brought into this case. There are some who betrayed my friendship and hospitality. But there are others innocent of wrong doing, whose names and reputations I would guard. My wife has brought this all upon herself. She must suffer now as I have long suffered. I have dreaded this court trial, but to get possession of my boys I knew that it must be gone through. A point has been reached when there could be agreement between us. I do not fear the outcome of it." Both the Captain and his wife, Grace Viola, faced the second day of the trial with composure.

Proposed Changes in Russia.

St. Petersburg, Aug. 3.—The second session of the Reform Commission was held today and the plan for the convocation of a representative assembly was taken up for discussion. The Czar presided at the meeting which was attended by all ministers, several of the grand dukes and members of the council of state.

St. Petersburg, Aug. 3.—There is a growing opinion among the people of all classes that the outcome of the session of the commission which is now meeting at Peterhof to consider reform measures will be to bring about many of the changes which it is felt are so badly needed. For that reason the greatest interest is being manifested in the meeting.

To Cross at Grade.

Richmond, Va., Aug. 3.—The corporations commission today rendered an important decision giving the Tidewater railway company the right to cross at grade the tracks of the Norfolk and Western Railway in South Norfolk. The Norfolk and Western fought the grade crossing and asked that the Tidewater be required to cross on an overhead bridge.

The victory for the tidewater is a tremendous advantage for the Gould-Vanderbilt interests which are seeking a deep water terminus in Virginia for the Wabash system.

Pitched Battle.

Newcastle, Penna., Aug. 3.—A pitched battle in which sticks and stones, picks, shovels and dynamite played an important part, took place last evening, near Hazleton' between a Baltimore and Ohio construction force and a party of employes of the Republic Iron and Steel Company. The work in which the Newcastle men have been engaged is the construction of the new cut-off, which is near the Hazleton Mill.

Last evening while performing their usual labors, they were attacked by a large force of the Republic company employees. These men were armed with various kinds of weapons and carried a quantity of dynamite to which lighted fuses were attached. The deadly explosive was thrown into the crowd of railroad workman who were compelled to flee for their lives. A great deal of damage was done by the attacking force of workmen, the new tracks being blown up by the charges of dynamite While this work of destruction was being accomplished the railroad men had recruited their forces and returned the attack. It was at this critical moment that the Sheriff of the county interferred probably preventing considerable loss of life. The cause of the trouble is a dispute between the railroad and the Steel company as to the right of the Baltimore and Ohio people to occupy and use the ground which has been appropriated for the purpose of making the cut-off.

Attacked by a Peasant.

Paris, Aug. 3.—A dispatch from Geneva describes an attack made upon Mr. and Mrs. George J. Gould and their son while they were motoring near Lake Zurich by a peasant they encountered on the road. Mrs. Gould and her son were both injured. The Goulds were making an automobile trip from Lucerne, where they have been staying, along the shores of Lake Zurich. Near the village of Kussnacht they overtook a peasant driving a bullock cart. The man refused to allow the motor car to pass, but the chauffeur watched his opportunity and tried to go by. As the car passed near the peasant he stuck out with his whip. The chauffeur was struck repeatedly and Mrs. Gould was beaten about the neck and shoulders. The younger Gould was struck in the face. The Gould's made a complaint against the peasant who attacked them.

American Bidders Excluded.

London, Aug. 3.—Bidding for the construction of the electric tramway system in St. Petersburg, it has been learned, has been limited to Belgian, German and French firms. American and English companies have been excluded from offering bids which are to be received soon, on account of the pro-Japanese tendency of these countries. American construction companies, it is understood, will protest against being excluded from the competition for the contracts.

Viceroy for Finland.

It is expected that General Kleigel will be appointed the first viceroy of Finland.

Suggests South for Italians.

Baron Mayor des Planches, the Italian Ambassador, is preparing a report to his government regarding the immigration of Italians to this country. The Ambassador, who has investigated the question during a trip in the southern States, firmly believes that there is a great future for Italians in the South. Fully 48 per cent. of the Italians who come to this country are farmers, but as 90 per cent. of the immigrants land in northern ports, they never find an opportunity to engage in farming, but remain in the cities. If, on the other hand, they would go to southern ports, they would find a great demand for their services in the agricultural enterprises, especially in the cotton plantations, for the Italian is a most careful cotton-picker. At present the sugar industry of Texas is largely in the hands of Sicilians, and the employers like them better than any other workmen. The measures to turn the tide of Italian immigration toward the southern States have not yet been finally determined upon a working basis.

Scene in Court.

A lively scene occurred in the Police Court, in Richmond, yesterday, when Legh R. Page, a well-known lawyer, was standing before the bar, a heavy lawbook in hand, making a statement to the court in a gambling case in which L. Dickenson was defendant. C. B. Wood, complainant, standing immediately under the lawyer, declared the statement false. Mr. Page, who had already quietly taken several distasteful remarks from Mr. Wood, brought the heavy leather-covered book with a whack down on Mr. Wood's head. The lawyer at once apologized to the court for any seeming contempt and declared he had no desire to defend himself against any punishment the court saw fit to impose. Both men were fined $10. A number of persons asked to be allowed to take up a subscription to pay the fine, but the lawyer declined.

Tree on His Breast.

Funeral services for Frank and Charles Demmerle, the brothers killed by lighting while bathing at the Parkway Baths, New York, on Sunday afternoon, were held Tuesday evening at the home of their parents. Although the bodies were discolored, they were not disfigured. On Frank's breast was imprinted a likeness of a tree. It was about 18 inches long and was perfect, even to the smallest details, including the coloring of the leaves. The likeness was burned deep in the flesh. Physicians are unable to explain the phenomenon, as there was no tree within several hundred feet of the spot where the lightning bolt struck.

The Only Way.

There is no way to maintain the health and strength of mind and body except by nourishment. There is no way to nourish except through the stomach. The stomach must be kept healthy, pure and sweet or the strength will let down and disease will set up. The Late Judge Wylie.

The death of Justice Andrew Wylie (retired), formerly of the Supreme Bench of the District of Columbia, which occurred in Washington on Tuesday, brings to mind many reminiscences concerning him, the best-remembered being the granting of a writ of habeas corpus in the case of Mrs. Surratt, in the face of military coercion and at a time when the dominant party of the country was inflamed by the murder of President Lincoln. Justice Wylie was 91 years old and retired from the bench 20 years ago. He was a man of great mental and physical vigor. His wife, who was formerly Mary C. Bryan, of Virginia, died about eight years ago, and he is survived by one son, Horace Wiley, an attorney. The funeral service was held today at the family residence, 1205 Thomas Circle, Washington. Though a man of the utmost kindliness of disposition Judge Wiley was inflexible and even severe in his insistence upon exact justice and strict obedience to the law in all matters that pertained to the court. He was born in Washington county, Pennsylvania, in 1814, practiced law in Pittsburg between 1837 and 1848, when he opened an office in this city. He was a supporter of Lincoln, and cast his vote for him in Alexandria in 1860. Lincoln received another vote in Alexandria, that of Lev. Walker, Judge Wylie's relations with the Lincoln administration were close and he was an intimate friend of Secretary Edwin M. Staunton. Yet, when it came to a question of the enforcement of the civil law, he issued the writ of habeas corpus in the case of Mrs. Surratt, doing everything in his power to take the case out of military jurisdiction into the civil court. When his authority was overruled by the military power, martial law being declared, he yielded only to the superior force, saying: "General Hancock has 80,000 soldiers in the vicinity to enforce his order; I have but 50 policemen to enforce the law." He sat in the "Star Route" cases and the cases growing out of alleged frauds in the Navy Department, besides in many others of importance. During his entire career he was noted for devotion to exact justice in the enforcement of the letter of the law. He was appointed to the Supreme Court of the District in 1863 and retired in 1885.

School Census.

The school census required under the State laws to be taken every five years between June 1 and August 1, has been completed. It comprises children between the ages of 7 and 19 years. The total number is 3,910, as follows:

	White.	Colored.	Total.
First ward,	603	253	856
Second ward,	563	202	765
Third ward,	744	489	1,233
Fourth ward,	783	273	1,056
Total,	2,693	1,217	3,910

The census of 1900 which comprises children between the ages of 5 and 21 years, was as follows:

	White,	Colored.	Total.
First ward,	572	192	764
Second ward,	380	172	552
Third ward,	1,365	693	2,058
Fourth ward,	858	597	1,455
Total	3,175	1,654	4,829

According to the census the school population is 919 less than it was five years ago, but then, as stated above, the census comprised children between the ages of 5 and 21, while now, under the new laws, only the names of those between the ages of 7 and 20 are taken, so no comparison can be made on these lines. Since the last census was taken the ward lines of the city have also been changed, so neither can a comparison by wards be made.

Summer Exodus.

As is usual at this season, many Alexandrians are out of the city, some at Atlantic City, others at the different watering places in Virginia and West Virginia and in mountain and river resorts, while numbers are summering in rural retreats with relatives and friends. The river steamers are crowded with passengers on every trip, and busy scenes are now witnessed on the piers at the departure of steamers. Many who are unable to leave their occupations patronize the excursion boats which are crowded daily and nightly. A large percentage of the community is destined to remain at home and endure the heat and burdens incident to the dog days and witness the exodus of those who are in a position to escape the discomforts of city life during the heated term. Such may at times be tempted to murmur, but at the advent of the cool waves of early fall they will doubtless feel as happy as those who shall have remained away during the summer, provided their health has been preserved, which is not the case in all cities at present. The unfortunate conditions now prevailing in New Orleans, where the mass of the community is compelled to remain and brave the danger incident to the spread of yellow fever, should cause those in more favored to be thankful for immunity.

The Cotton Scandal.

To the Editor of the Alexandria Gazette.

It may seem amusing to you that I should take any interest in the cotton leak scandal, but the reason is this: After the first Bull Run battle, 44 years ago, Miss Millie Stewart and I saw so much to do in Alexandria that we decided to work for the men who were sacrificing every thing. We did not realize how hazardous the undertaking, and soon we found out we must have help. I do not mean financial (as you know the men in that place never closed their pocketbooks from '61 to '65). I lived at 118 Cameron street and two doors from me lived Lawyer Beach, a union man. To him I went and he told me to call on him at any time to go with us to the Provost Marshal for a permit, and as long as we violated no law he would help us, and he did so in many ways and there can never be charged against him one act of unkindness against a Confederate prisoner. He has even gone with us to the jail and old cotton factory, where they were sometimes kept for a while, so you see I know if Morgan Beach is a man like his father (I have often had him in my arms) the cotton growers are safe and sure of getting justice at his hands. You know our city was as no other; only 6 miles from the capital; captured May 24, 1861; was generally under martial law, and although our preachers were taken from their pulpit, and our citizens rode on cars—can you remember one man who even in those trying times denied his sentiments? No one has ever given that grand old city on the Potomac her dues. Will she ever get them in history? Now you see how I hope to see the name of Morgan Beach honored in this matter. Respectfully,

MRS. KATE HOOPER

Batesville, Ark., July 31.

Mr. Willard.

To the Editor of the Alexandria Gazette.

Will you kindly publish the following, of which there has been much discussion:

1st. What was Mr. Willard's position on the Eppes or Jim Crow car bill?

2nd. What is Mr. Willard's record as to income tax? A VOTER.

1st. In the committee, to which the above Jim Crow car bill was referred, Mr. Willard offered one or more amendments. These being voted down Mr. Willard voted in committee against the bill. The bill was nearly defeated, the vote being only 6 to 5 in its favor. There was practically no opposition to the bill in the House, when it was reported favorably, and no recorded vote. The opposition to the bill having failed in committee, it passed the House by an overwhelming aye and nay vote.

2nd. Mr. Willard has never paid any income tax for any year as the books show. He explained that in 1904, his losses were more than his income. As to the other years we have heard no explanation X

Cameron Water.

With yellow fever rampant in New Orleans, and typhoid fever much in evidence in Alexandria, the city's water supply has acquired its usual summer bad taste and smell. Last year the same conditions prevailed, and after blaming the contamination on polluted sources of supply, and threatening to place armed guards at all the streams so that the sunny sons of Italy could not indulge in their weekly or monthly ablutions, it was finally discovered that the trouble lay right in the reservoirs themselves. A luxuriant growth of weeds was found serenely growing in the reservoirs, nurtured by the tender care and protected by the fatherly protection of the water company officials. Public opinion, fanned to white heat, finally compelled the company to clean the reservoirs. If conditions continue, a high license in Alexandria will be favored, even by those who are most directly interested, for all the people will of necessity be compelled to forego water for a stronger beverage. It is said that the water company has an iron-clad charter, but even this fact cannot prevent their being forced to comply with the duties of a quasi-public corporation. It is about time that the citizens of the city were taking a hand in the matter.

Grave Trouble Foreseen.

It needs but little foresight, to tell, that when your stomach and liver are badly affected, grave trouble is ahead, unless you take the proper medicine for your disease, as Mrs. John A. Young, of Clay, N. Y., did. She says: "I had neuralgia of the liver and stomach, my heart was weakened, and I could not eat. I was very bad for a long time, but in Electric Bitters, I found just what I needed, for they quickly relieved and cured me." Best medicine for weak women. Sold under guarantee by E. S. That Richmond Primary.

Eighty-five citizens of Richmond have signified their willingness to serve, without compensation, as judges and clerks if a new primary is ordered to correct the now evident frauds in the one of a few weeks ago. A letter to that effect has been addressed to the city democratic committee, but it is not likely that any action will be taken until the special grand jury, which is investigating the late primary, has completed its work.

Mr. W. L. Royall, has been retained by certain citizens to prosecute those responsible for the fraud in the primary, and strenuous efforts will be made to discover and severely punish all the guilty parties.

The grand jury is experiencing some trouble in ascertaining from the voters for whom they cast their ballots. Some of them, though not many, refuse absolutely to answer the question, while some others profess to be unable to remember. Others, it is said, have been coached by the politicians and answer readily.

CANDIDATES.

Alexandria, Va., July 19, 1905.

TO MY FELLOW CITIZENS OF ALEXANDRIA CITY AND COUNTY:

I beg to announce that I will be a candidate for the House of Delegates for the city and county of Alexandria subject to nomination by the democratic primary. It is well known to my fellow citizens that I was an aspirant for the honor of lieutenant-governor of Virginia, and that for reasons already made known to the public I felt constrained to retire from that contest. When I did so I had no intention of becoming a candidate for renomination and re-election to the House of Delegates, until urged upon me by a large number of my fellow citizens of the city and county of Alexandria, whose wishes and friendship I felt under obligations to regard. After mature consideration and yielding to what I believe to be the wish of a large body of my fellow citizens and friends representing every interest in the community, I have concluded to stand for re-nomination and re-election. I have been twice honored with the election by my people as their representative in the General Assembly of Virginia, and trust that my past record in that body will be to them a pledge and assurance of my future conduct should it be their pleasure to return me to this post of honor. In the event of my nomination and election I pledge myself faithfully to guard and defend every interest of the city and county in which I have spent my life and in which are centered all my affections and interests. I respectfully solicit the endorsement and support of the people whom I have represented to the best of my ability in the two last General Assemblies of Virginia. Very respectfully,

Had Two Collisions.

Two collisions at sea, one of which snapped a propeller blade, were reported by the steamship Minneapolis, which arrived at New York yesterday from London. The first mishap occurred in a perilous pocket made around the Minneapolis by another liner, a tramp ship, and a fishing smack on July 22, in the English channel. Her commander, Capt. Thomas F. Gates, said that his steamer was wedged so tightly in the trap that his only choice was which of the other ships to run down. He chose the fishing smack as the least dangerous, and struck this boat a glancing blow, which carried away parts of her rigging, but did no other serious damage. Two days later Captain Gates believes the Minneapolis ran over a fragment of a submerged wreck. Early Monday morning, while the passengers were asleep, the steamer shivered as from a shock against her hull and one blade of the propeller snapped off. Passengers were awakened and ran on deck in alarm, as the steamer came to a stop. After a short delay, however, she proceeded on her way.

European and American Aristocracy

Comparing the American and European types of aristocracy, Col Henry Watterson, who returned yesterday on the steamer Oceanic from a trip to Europe, said: "I observed European aristocracy pretty closely while I was over there, and I have arrived at the conclusion that foreign aristocracy is of a much better grade than the American article. There aristocracy means lineage and brains. Here—well, it ranges chiefly from bad whisky to Standard Oil."

Mr. Watterson said that he had read the accounts of the scandal in the Department of Agriculture, and added: "I have often wondered how so many scientific men connected with the government at comparatively small salaries could live so well. It only goes to show that the college man is not a success in politics."

MEETINGS.

A CALLED MEETING of the stockholders of the COLONIAL LOAN AND DEPOSIT ASSOCIATION will be held at the offices of said association, No. 128 south Fairfax street, Alexandria, Virginia, on MONDAY, August 7, 1905, at 2 o'clock, p. m., for the purpose of considering certain resolutions of the Board of Directors of said association, adopted on the 17th day of June, 1905, in Havana, Cuba, which resolutions are as follows:

First. This company being now essentially a Cuban institution, with all its financial interests in Cuba, be it resolved that steps be taken to abolish the present legal necessity of holding the stockholders' meetings in Virginia, United States of America.

Second. In order to accomplish the object of the first resolution, and also to make some changes deemed necessary and expedient, be it resolved that it is deemed advisable that the Directors of the Colonial Loan and Deposit Association be authorized and empowered to transfer, by sale, consolidation or otherwise, to another company which is or may be established under the laws of Cuba by the directors of the Colonial Loan and Deposit Association, or by others, or by both, all the assets and liabilities of the old company other than the rights of or against its stockholders derived from the subscription to or possession of stock, said Cuban company to be formed on the basis deemed most expedient for securing more capital for loans and investments, and with the general powers of a trust company.

Third. Be it further resolved that it is deemed advisable that the stockholders of this company whose stock at the time of transfer is unencumbered and up to date in its payments, exchange their stock for paid-up and non-assessable stock of the Cuban company, receiving in stock of the said company an amount equal to the total loan fund credit of their respective certificates of stock, plus 1-6 of 1 per cent. for each month transpired since the first payment on same.

Fourth. Be it further resolved that the stockholders who now have loans may continue their monthly payments as at present, in accordance with the conditions of their respective contracts, until their loans are paid off, but that they may, if they wish, exchange their stock as the other stockholders, and recognize a straight loan in favor of the purchasing company.

Fifth. Be it further resolved that a special meeting of the stockholders of this company be held in Alexandria, Virginia, on the seventh of August, 1905, at 2 p. m., to take action on the above resolutions, and also to arrange all the details of transfer and change that may be deemed necessary and expedient.
